**VOIP API's**
voipcollabrify.appspot.com

**Firebase API's**
firebasestorage.googleapis.com
*.firebaseio.com

**Individual App's and API's**
*.roadmap.center (https://start.roadmap.center, builder.roadmap.center, etc)
*.imlc.io (flipbook.imlc.io, writer.imlc.io, etc)
collabrify-backend.appspot.com
api.keen.io
apis.google.com
accounts.google.com

**Catch all Google API's**
*.googleapis.com

**Google Apps For Education Settings**
Drive and Docs -> Features and Applications -> Drive SDK -> Allow users to access Google Drive with the Drive SDK API -> ON (https://support.google.com/a/answer/6105699?hl=en)
Drive and Docs -> Sharing Settings -> Sharing Options -> Allow users in <your domain> to receive files from users outside of <your domain> -> ON
I believe both of these settings are enabled by default!
